In the heart of Puglia, southern Italy, far from mass tourism, between the Adriatic and the Ionian Seas, plunged in the green of hundred year old olive trees, our new GROTAMIRANDA Naturist Resort (Opening in April 2016) provides the charm of a family and convivial retreat allowing to associate relaxation with sport and culture.

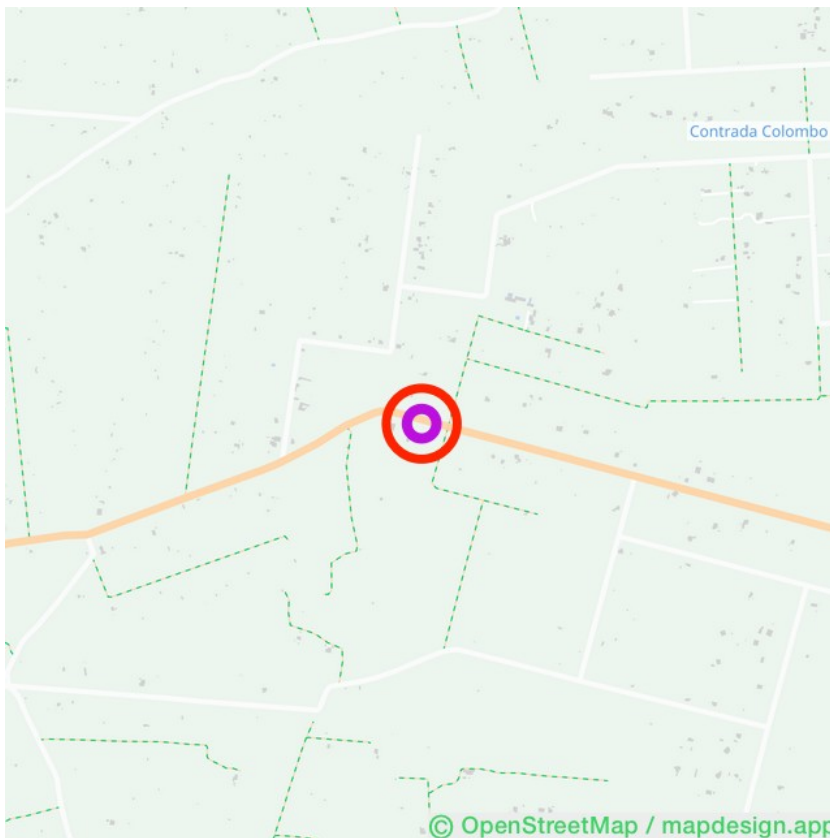

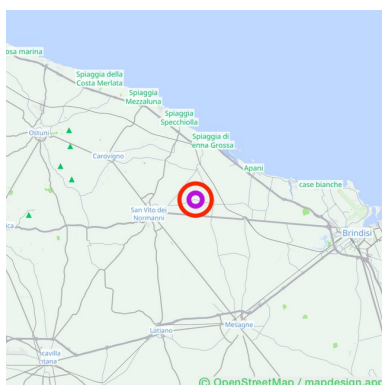

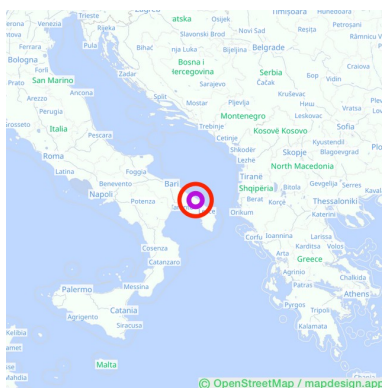

The GROTAMIRANDA Naturist Resort is located in Serranova, in the municipality of Carovigno (BR), a province of Puglia. The Resort is also at:

CONVIVIALITY AND CULTURAL WEALTH

A part from our resources regarding service needs, our target is to share with our naturist guests :

- Puglia' s cultural and artistic wealth, the sweet tooth of its territory,
- but also its invaluable capital that is represented by its natural patrimony.

Over 8000m2, the Resort family dimension, allows to give a very different idea from that of the other holiday centres that welcome

thousands of anonymous guests. Our target is to promote exchanges between nationalities as well as conviviality but also to share interests in common. Naturism and wealth of an authentic region will be the common basis of a family dimensioned welcome to unforgettable holidays.

NATURISM AND CONFORT:

Thanks to a small area and to its family vocation, the GROTAMIRANDA Naturist Resort, is the very first Italian Naturist Resort with no camping facilities. Each family may choose an apartment meeting its own needs : from 2 to 6 guests. Our lodge apartments are mostly located in an elegant masseria. Decorated with star vaulted ceilings which typify the region, they are simply furnished but adapted. Each family may enjoy a vaulted terrace or a pergola to guarantee open air meals in whatever sun exposure.

THE BEACH

GROTAMIRANDA Naturist Resort is located very close to Nature Reserve of Torre Guaceto. In February 2014, the council recognized a beach dedicated to naturists around 7 kilometers from the resort (10 minutes driving). It is located in a cove, just under the XIVth century tower. Made of sand, it provides a calm and transparent sea, which is not deep.
